

PIXINEON 60-OV is a digital LED flexible neon with a vertical bending capability. Each meter has 60 SMD5050 LEDs controlled in 10 pixels total, giving bright and dynamic color effects. It's made with high quality silicone used to provide a better heat conduction and IP67 waterproof rating. This pixel neon flex provides beautiful color mixing and pixel effects for various applications such as clubs, pools, shops and outdoor installations.

SOURCE Light source: SMD5050 RGB LEDs
LED quantity: 60 LEDs per meter

OPTICAL SYSTEM View angle: 120°

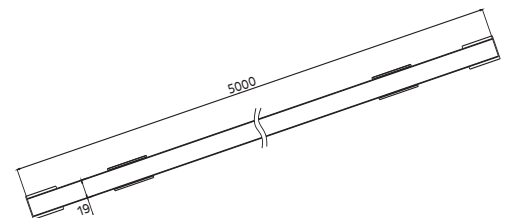

CONTROL & PROGRAMMING Pixels control: 10 per meter
Color mixing: RGB
Control protocols: DMX, 44 FPS
Control channels: 30 CHs per meter
Address setting: Manual

ELECTRICAL Input voltage: 24V
Power consumption: 12 watts per meter

CONNECTIONS Power & data connection: 15cm 5 pin female and male connection
Cable entry: Side

PHYSICAL Dimensions: 5000 x 19 x 21mm
Bend direction: Vertical
IP rating: 67
Operating temperature: -40°C/50°C
